

TRACK-TYPE LOADERS

...models for tough excavating and backfilling, demolition and shot rock loading. Automatic bucket controls. Pedal steering.

Work tools: general and special purpose buckets, log and lumber forks, ripper-scarifiers.

931 46 kW (62 FWHP)
0.8 m³ bucket capacity
6900 kg operating weight
with general purpose bucket.

931 LGP 46 kW (62 FWHP)
0.8 m³
7500 kg

941B 60 kW (80 FWHP)
1.15 m³
11 300 kg

951C 71 kW (95 FWHP)
1.34 m³
12 300 kg

955L 97 kW (130 FWHP)
1.53-1.72 m³
13 700 kg

977L 142 kW (190 FWHP)
1.91-2.48 m³
21 300 kg

983 205 kW (275 FWHP)
3.44-3.82 m³
34 200 kg

WHEEL TRACTOR-SCRAPERS

... the most complete line in the industry. Four basic configurations, 15 models. Optional special application scrapers. Building roads, dams, levees, airports, mining or utility work - you'll find the perfect Cat Scraper for your earthmoving job.

STANDARD: basic push-loaded scraper. Two and three axle models that haul and spread at low costs.

621C 246 kW (330 FWHP)
10.7/15.3 m³ struck/heaped

631D 336 kW (450 FWHP)
16/24 m³

641B 410 kW (550 FWHP)
21.4/29 m³

651B 410 kW (550 FWHP)
24.5/33.6 m³

660B 410 kW (550 FWHP)
30.6/41.3 m³

ELEVATING:

Self-loaded by chain elevators that paddle-wheel materials into bowl. Chops and mixes as it loads.

613B 112 kW (150 FWHP)
8.4 m³ heaped capacity

623C 246 kW (330 FWHP)
16.8 m³

633D 336 kW (450 FWHP)
26 m³

TANDEM POWERED AND PUSH-PULL:

Two engine, all-wheel-drive scraper works on soft or muddy ground. Fully loaded can take grades up to 40%. Working as a pair, scrapers help each other load then separate for fast hauling and spreading.

627C 336 kW (450 FWHP)
10.7/15.3 m³ struck/heaped

637D 525 kW (705 FWHP)
16/24 m³

657B 708 kW (950 FWHP)
24.5/33.6 m³

666B 708 kW (950 FWHP)
30.6/41.3 m³

OFF-HIGHWAY TRUCKS

...high speed, rear-dump haulers for ore, mine overburden, quarried rock, tough highway excavation. Oil disc brakes, pneumatic suspension, rugged bodies.

769B 309 kW (415 FWHP)
32 t capacity

773 447 kW (600 FWHP)
45.4 t

777 649 kW (870 FWHP)
77 t

OFF-HIGHWAY TRACTORS

... designed for rugged performance with high rimpull to team up with a variety of wagons for large scale, efficient hauling - from dirt to coal.

768B 309 kW (415 FHWP)

772 447 kW (600 FWHP)

776 649 kW (870 FWHP)

COAL HAULERS

... hydro-pneumatic suspension on all axles for smooth ride. Low loading height. Hydraulically operated doors. Even dumping.

772 447 kW (600 FWHP)
91 t wagon
102 m³ heaped capacity, 3:1

776 649 kW (870 FWHP)
136 t wagon
153 m³, 3:1
